Today, millions of people want to learn or improve their English but it is difficult to find the best method. Is it better to study in Britain or America or to study in your own country?

The advantages of going to Britain seem obvious. Firstly, you will be able to listen to the language all the time. You will be surrounded completely by the language. Another advantage is that you have to speak the language if you are with other people. In Spain, it is always possible, in the class, to speak Spanish if you want to and the learning is slower.

On the other hand, there are also advantages to staying at home to study. You don't have to make big changes to your life. It is also a lot cheaper than going to Britain but it is never possible to achieve the results of living in the UK. If you have a good teacher in Spain, this can also be a good option to improve your English.

So, in conclusion, I think that if you have enough time and enough money, the best choice is to spend some time in the UK. This is simply not possible for most people, so being here in Spain is the only viable option. The most important thing to do in this situation is to maximise your opportunities: to speak only English in class and to try to use English whenever possible outside the class.
